Create a CHDS Login Account

If you think we may already have your email address on file for an account, skip this page and [log in](#) (or use the [forgot password](#) feature).

i IMPORTANT. Your email address will serve as your website login name. We recommend you use an email address that shows an official homeland security affiliation, such as one that identifies an official agency, institution, or military domain. **For access to the self-study program or the Homeland Security Digital Library, personal addresses** (such as gmail, yahoo, comcast) **are not permitted**. Use of a personal email address **may slow your request** while we ask for **additional information that verifies your eligibility**. If you do not have an official email address but can have a supervisor from your organization or professor from your school verify your affiliation, please contact chdstech@nps.edu
